

## Program Benchmarks

The program will be considered a success if:

- It maintains 60 majors by the fourth year it is offered (2015-2016)
- 80% or more of the majors complete the program requirements in five years or less
- 80% of the graduates find employment in Meteorology and/or Geospatial fields within in one year after graduation, or pursue graduate education.
- 75% of employers are satisfied with our graduates' job performance after one year of employment.

## Questions?

### RECOMMENDATION:

Establish a Bachelor of Science Degree in Meteorology effective spring 2012.

If BOV approves, the proposal is to be forwarded to the State Council of Higher Education in Virginia (SCHEV) and the Southern Association of Colleges and Schools (SACS) for notification.
