

PROPOSAL

- The new standards for academic progress in semesters 1 through 6 of the DVM program:
 - ✓ include use of higher GPA threshold and/or the number of D grades for detection of students at risk;
 - ✓ a series of Academic Warning, Academic Probation, and Academic Review, which incrementally warn students regarding their academic performance and outline mechanisms for mentoring and remediation;
 - ✓ place the duty of care on the college.

- The college recommends these standards apply to students who entered in Fall 2010.
