Lisa stated that a big part of SIRC is to help inform the research community what is and what is not required. We now have a group of expert leaders that can help you navigate a variety of situations so we can be compliant with federal regulations and requirements. Regarding IRB certification, as of January 2019, VT requires initial training and then refresher training every three years. Karen Roberto encouraged CoR members to play an active role in IRB.

b) Uri Kahanovich mentioned SIRC visibility. Regina Allen explained that several of the SIRC groups have office hours in buildings where researchers work, including Litton-Reeves and FBRI on a monthly basis. We are trying to get the word out via VT news.
