Julia Shapiro	x		
Vicki Soghomonian	x		
Pam Vickers		x	
Anthony Watson	x		
Guest(s):			
Jeff Orzolek	x		

Minutes / Notes

Call to order and confirm quorum

Liza called the meeting to order at 1:31pm. Quorum was present.

1. Committee Membership

- a. Anthony Watson has replaced Wendy Halsey as a CPIF rep
- b. Julia Shapiro has replaced Dan Folescu as the GPSS rep

2. Committee Business

- a. Approval of minutes for December Ed Olsen, Nick Brians
 - i. Minutes for November were approved.

3. Report of the Chair

- a. March 5, 2024 meeting topics
 - i. Capital Projects update
- b. April 2, 2024 tour location – preference for a space not open to public
 - i. CLMS
 - ii. Dining Processing Center
 - iii. Power Plant

4. LHSACC Priority 2 - Green Link

- a. Presentation attached
- b. Creates accessible connection from Drillfield to perry street.
- c. Construction has begun on section C
- d. Work will continue through this spring and summer
- e. Design of priority 3 is ongoing
- f. Nick – will the ramp be ADA compliant – LM – Yes. That is the entire purpose of this project. It will use a series of compliant paths and ramps

- g. Nick – Disability alliance feels it would be helpful to add benches or areas for rest? LM – the section currently under construction is a steep slope; this section will provide landscape for shade/wind screening and the design includes an area for rest/gathering (about halfway up). Nick – will there be benches? – LM – The section currently under construction is too steep and narrow so we won't likely be able to provide space for a bench there. I will check the final design. The rest of the path slated for construction this spring/summer will including benches and seating along the route, included in the final design.
- h. Nick – What is the plan for the path to Burruss Tunnel and the entrance to Pamplin hall – LM – during construction there will be access to the accessible entry in Burruss Tunnel. The project scope connects to, but does not revise, the entrances to Pamplin hall. Nick - While the fencing is up, how will people get to that side of Pamplin. The Capital Construction group is working out options for accessible routes and phasing during construction.

5. Discussion

- a. Soghomonian - Would like a discussion on Parking and spots taken by contractors LM – we will connect with Parking Services to request a discussion regarding campus parking at our next meeting.
- b. Soghomonian - What is the procedure to request accessibility in an emergency situation where an elevator is not working? LM - Questions can be submitted through VT's main webpages via the accessibility icon or <https://www.vt.edu/accessibility.html>. Pam Vickers spends a lot of her effort identifying alternate accommodations for faculty and staff. Also, in the Office of Equity and Accessibility – Joe Cooley looks at specific concerns and compliance issues. This includes evacuation and emergency situations. A majority of our buildings were constructed before the 1990's ADA legislation. VT works on accessible solutions and modification in those buildings with various projects at every opportunity.

6. Adjournment

- a. There being no additional discussion or questions, the meeting was adjourned at 2:07.

CAMPUS DEVELOPMENT **COMMITTEE**

UNIVERSITY COUNCIL CABINET

February 6, 2024

The background of the slide features a photograph of a stone building with a wooden door, partially obscured by vibrant autumn leaves in shades of yellow, orange, and red. A white rectangular box is centered over the image, containing the word 'AGENDA' and a small orange icon.
