Staff Recognition Winner October 17, 2024

Winner: Neil Rickmond

Nominator: John Leech

Why are you submitting them for recognition?

Neil does a phenomenal job as the OUR's IT tech. As the office that holds all student records, Neil has to be extra agile in security but also general support of the large staff we have to support Virginia Tech's operations. Ask anyone in the office, Neil always goes above and beyond for each individual, merging technical needs with functional individual assistance. He is known as an incredibly kind human, and constantly chatting anyone up to make sure they are seen, comfortable, and enjoy their day. Lastly, Neil has been called to support the Enrollment Management division multiple times for things such as onboarding and campus presentations/events. Neil is way more than our technical support, he is one of VT's kindest, most humble, dependable, dedicated individuals that we are all lucky to know.

What qualities does this person possess that you would like to highlight? (kindness, teamwork, leadership, etc.)

Kindness, humble, dependable, dedicated, genuine

Are there any specific actions, events, etc. that you would like to highlight?

Neil always goes beyond his role with a smile, including supporting other offices in times of need, VPs, and even campus-wide initiatives led by the CIO. He also takes every action to heart and with an individualistic approach where often people can feel things can be more transactional in nature (e.g., new hardware, security training, physical space needs, etc.) - not with Neil.
