**1 Announcement of approval of February minutes**

Minutes were sent out by chair and approved through email after the previous meeting.

**2 Parking & Transportation Update**

Jeri Baker provided an update from P&T. Earth Week was last week; the Alternative Transportation unit biked to campus, and held a bicycle helmet giveaway which was not completed due to inclement weather – another giveaway event will be held to complete. AT has a new campaign emphasizing Mode Awareness: being aware not only cars, but being aware of everyone using all transportation modes. P&T itself has not seen their final budgets now, but nothing is expected to differ substantially from previous discussions.

**3 Virginia Tech Police Department Update**

Mac Babb provided an update on 2016 campus crash statistics from VTPD. The two highest crash areas were W. Campus (9) and Washington St. (8); no one specific problem was cited as causing most crashes. There were 95 hit and runs last year on campus (mostly in Cassell and Perry Street lots). There were 2 pedestrian incidents this year – down from 6 in 2015. And there were 14 bicycle crashes in 2016, compared to 4 in 2015.

**4 New Business**

The chair re-emphasized the need for 2017/18 committee chair. Selection efforts are ongoing.

**5 Questions and Comments**

**6 Next Meeting Date**
