1. Adoption of Agenda

A motion was made and seconded to adopt the agenda. The motion carried.

2. Announcement of approval and posting of minutes of October 6, 2014

Dr. Sands noted that these minutes have been voted on electronically and can be publicly accessed on the Governance Information System on the Web (<http://www.governance.vt.edu>)

3. Old Business

Commission on Graduate Studies and Policies

Resolution 2014-15C

Resolution to Establish the Master of Arts Degree in Data Analysis and Applied Statistics

Dr. Hans Robinson presented the resolution for second reading and made a motion to approve. The motion was seconded. A concern was mentioned that this new Master of Arts degree in Data Analysis and Applied Statistics could be confused with the Bachelor's degree in Computational Modeling and Data Analytics. It was indicated that these two programs are very different programs. Data analytics is tied to more business applications, data mining, and larger data sets. Data analysis deals more with applications in psychology and sociology. This new degree is a less theoretical degree than the current Master of Science degree in Statistics. Dean DePauw indicated that there are several applied as well as several theoretical Master's degrees and PhDs.

A vote was taken and the resolution passed.

Commission on Undergraduate Studies and Policies

Resolution 2014-15A

Resolution to Approve New Major, Criminology in the Bachelor of Science in Sociology

Dr. Stephen Martin presented the resolution for second reading and made a motion to approve. The motion was seconded, and the motion passed.

Commission on Undergraduate Studies and Policies

Resolution 2014-15B

Resolution to Approve New Major, Residential Environments and Design in the Bachelor of Science in Apparel, Housing, and Resource Management

Dr. Stephen Martin presented the resolution for second reading and made a motion to approve. The motion was seconded. A question was raised as to how much overlap there will be with this new major and the Building Construction program. It was indicated that the faculty in Apparel, Housing, and Resource Management teach in the Building Construction program but there is very little crossover in student majors.

A vote was taken and the motion passed.

Commission on Undergraduate Studies and Policies

Resolution 2014-15C

Resolution to Approve New Degree in Bachelor of Science in Systems Biology

Dr. Stephen Martin presented the resolution for second reading and made a motion to approve. The motion was seconded, and the motion passed.

Commission on Undergraduate Studies and Policies

Resolution 2014-15D

Resolution to Discontinue Bachelor of Arts in Humanities, Science, and Environment

Dr. Stephen Martin presented the resolution for second reading and made a motion to approve. It was noted that there are a few students in the program, and they will be able to complete their plan of study. New students are not currently being enrolled in the program. The motion was seconded, and the motion passed.

4. Announcement of Approval and Posting of Commission Minutes

These minutes have been voted on electronically and will be posted on the University web (<http://www.governance.vt.edu>). Note that the purpose of voting on Commission minutes is to accept them for filing. How to Invent the Future?

- Improve our organizational capacity to deliver rich technology-enhanced learning experiences.
 - Rich Learning Environments
 - Support for Faculty Digital Fluency
 - Multi-modal Course Design and Development

How to Invent the Future?

- Collectively "own" outcomes of excellence.
 - World-class learning environments.
 - Rich, engaging interactive course content.
 - The most advanced faculty support and content development strategies in the world.

Concrete actions

- Align TLOS activities with complimentary high impact/high priority initiatives [General Education, Office of Assessment]
- Improve our capacity to develop rich, interactive course content suited for multi-modal delivery strategies [TLOS reorg, partnerships]
- Explore and implement next-generation learning platforms [scale, media use, content accessibility]
- Enable exploration and implementation of learning analytics [tools + strategic vision + support]
- Facilitate individualized faculty digital fluency support [modular NLI, consultations, FRM]

“Before you become too entranced with gorgeous gadgets and mesmerizing video displays, let me remind you that information is not knowledge, knowledge is not wisdom, and wisdom is not foresight. Each grows out of the other, and we need them all.”

— Arthur C. Clarke
