

Budgeting and Planning Committee

2024-2025 Members

Charge: The Budgeting and Planning Committee serves a primary advisory role for the university budgeting and planning process. Areas for consideration include monitoring the university planning and budgeting processes; participating in and advising on the development of annual budgets (including the formulation of the university plan), the development of university capital and facilities plans, and the reconciliation of the plan and the available resources; consulting on other budgetary and planning matters; and addressing matters of policy relative to budgeting and planning appropriate for governance consideration, and in such instances, making recommendations to the University Council.

Records and Confidentiality: When acting in its advisory and consulting role, the Budgeting and Planning Committee will treat information, discussions, and recommendations with discretion and, whenever requested, in confidence to the extent allowable by law, since there will be times in the budgeting and planning process when matters must be handled confidentially. When acting in its capacity as a normal part of the governance system, the committee will keep minutes and forward approved copies of such to the University Council. Reports to: University Council Cabinet
